The Function

Marie Stopes UK is a reproductive health charity, best known for its abortion services which help up to 70,000 women a year. Our network of welcoming clinics and local community services, together with a 24-hour confidential helpline work, provide high quality, safe, accessible and compassionate advice, care and support for the women and men who need our services. 95% of our services are commissioned by the NHS. The remaining 5% are self-funding or supported by use of charitable funds.

Our clinic network is growing as part of our strategy to be the charity of choice for the women and men who turn to us for help, and for our funders. Our influence is growing too, as we work to increase public and political understanding of the issues women and men face in making reproductive choices.

We’re looking for people who share our drive to provide the best quality care to everyone who needs our services to join our committed teams of clinical, management and support staff.

We’re proud to be champions for reproductive choice, and we work hard every day to make a reality of women’s rights to decide whether and when to have children, hence our mission “children by choice”.

The Role

Reporting to the Clinical Services Matron /Clinical Team Leader, the main purpose of this role is to provide excellence in abortion and contraception care, as determined by the client, within the Marie Stopes philosophy of minimal intervention.

As a Registered Nurse/Midwife you will care for women’s health and support their reproductive rights in a multi-disciplinary team. You can expect to work in a client-centred, hands-on and fast-paced, dynamic nurse-led environment, strengthening or developing your clinical and professional skills.

We are pleased to accept applications from newly qualified nurses and midwives. Our ibelong Preceptorship Programme at Marie Stopes UK is a fantastic start to your career in nursing and midwifery at one of the UK’s largest providers of abortion services.
Registered Nurse/Midwife

Key Responsibilities and duties

- Using advanced Clinical assessment skills, take a complete assessment of client’s medical history- including obstetrics and gynaecology history, to determine suitability for treatment with Marie Stopes.
  - Perform Transabdominal/Transvaginal Ultrasound Scanning once assessed as competent (Training provided)
  - With advanced clinical nursing and interpersonal skills, interpret and discuss, Point of Care testing results with clients. This includes HB, Sickle Cell testing, Rhesus status, Sexually Transmitted Infection checks, including HIV. Offer sensitive and non-judgemental support to clients and refer to appropriate agencies where required.
  - To be up to date and confidently advise, teach and counsel clients all methods of contraception, especially Long Acting Reversible Contracepives.
